

Dear Patient,

We would like to take this moment to thank you for choosing Dr. Erik Suh as your family physician and for the confidence and trust you have placed in us. With your commitment, Eastside Primary Care & Wellness is continually striving to assist you and your family in improving and maintaining the most optimal health possible.

In addition to providing excellent primary care, we are excited to announce that we are now offering the most advanced aesthetic laser treatments that address your specific skin care concerns and individual needs. With our highly trained medical staff, we ensure safe and high quality results with our state-of-the-art, FDA approved Sciton Laser.

We value your opinion and would like to give *you* this opportunity to share your interest. Please take this moment to fill out our brief questionnaire. Thank you again!

To Your Health,

Eastside Primary Care & Wellness

AESTHETIC SERVICES

MICROLASER PEEL

The MicroLaser Peel is the latest in skin rejuvenation. This treatment delivers excellent results for poor skin tone, fine lines and wrinkles, acne scars, sun-damage, etc. One 10 micron MicroLaser Peel is the equivalent of 4-6 microdermabrasion treatments.

PROFRACTIONAL WRINKLE, ACNE SCAR, AND REJUVENATION TREATMENTS

This is the very latest in fractional resurfacing. Improves wrinkles, skin tone, texture, and correct visible signs of skin damage. There is collagen remodeling and skin tightening with this procedure and series of this treatment compares to almost face lift.

ADVANCED INTENSE PULSE LIGHT TREATMENTS

Intense Pulse Light (IPL) delivers effective treatments for hyper pigmentation, sun-damage, rosacea, vascular lesions, active acne and even collagen rejuvenation. Improves skin tone and reduces wrinkles.

INTENSE PULSE LIGHT ACNE THERAPY

Intense Pulse Light (IPL) has now proven to be one of the most effective acne therapies available today. In many cases, we can prevent our clients from needing to go on aggressive oral medications such as Accutane or long-term antibiotics. Along with a home skincare program designed for acne-prone skin, you can experience significant long-term clearance.

SKIN TYTE- SKIN TIGHTENING FOR FACE AND BODY

New advances in light energy have taken non-invasive treatment of skin laxity for toning and tightening to new heights that are safer and more effective than ever before.

This new ST Broad Band Light technology involves powerful skin cooling that makes the treatment very comfortable and virtually painless. The most popular areas to treat involve loose skin of the jaw-line and abdomen.

LASER/LIGHT HAIR REMOVAL

We offer 2 laser/light systems for permanent hair removal. With two lasers to choose from, we will be able to offer you the most effective treatment available for your skin and hair type.

THERMASCAN 1319 LASER TREATMENTS

The ThermaScan laser is the most advanced "no downtime" laser treatments for wrinkles, acne scars, poor skin tone, etc. These treatments are now also FDA approved for active acne. A series of four to six treatments is recommended with a 30-day period between each treatment. As each person differs, you may choose additional treatments to achieve maximum results.

OTHER SERVICES OFFERED

Botox Injections
Juvederm Injections
Chemical Peels

Please ask our staff regarding our physician strength skin care systems offered.

MD Forte
Prevage MD
Vivite
